About Us

Ekol Health Group has been offering diagnosis and treatment opportunities to its patients for more than 15 years with its 150 specialist physician staff, including 10 professors and 15 associate professors, more than 1500 staff and strong technological infrastructure.

As Ekol Health Group Hospitals, services are provided to patients from international countries as well as in Izmir and all over Turkey. In Ekol Health group Hospitals; Otorhinolaryngology, Ophthalmology, General Surgery, Internal Medicine, Orthopedics and Traumatology, Urology, Neurosurgery, Aesthetic and Plastic Surgery, Pediatrics, Psychiatry, Neurology, Chest Diseases, Dermatology, Cardiovascular Surgery, Gynecology and Gynecology Services are provided in all branches including Obstetrics, Gastroenterology and Cardiology.

Starting with the Ekol Health Campus, which was established in a central and easily accessible location in Çiğli, for a healthy life, it will lead our society to healthier days with its institutional structure that does not compromise on ethical principles, comfortable rooms, knowledgeable and friendly health personnel, academic and modern treatment facilities.

Our Team

First and above all, our high quality management skills, is bringing health tourism an outstanding approach. Our team consists of fluent english speaking and international team members both in the field and back at our offices in Ireland and UK.

As the international team, we have International Patient Coordinators that you go through the booking process with before you arrive. They will always be in touch with you whenever you need them. We have the International Patient Relations Specialists who will be alongside you throughout all the consultations, tests and examinations at the hospital. The Accompaniment Services will be at your back and call until late midnight and the International Nurses will be with you 24/7 non-stop. You will also have an international GP who will come to check up on you along with your surgeon.

Not only you are able to receive 24/7 assistance at Ekol Hospitals, but also you will be able to receive amazing aftercare as well by the Aftercare Team. With 10 professors, 15 associated professors and 150 doctors who are very experienced and devoted, we are as ready as we can ever be to present you our "Webinar" Project.

Our Offices

As Ekol Hospitals , we have been incorporated by registering at Companies House in the UK and Companies Registration Office in Ireland since January 2020. We have also opened our physical offices in Ireland and the UK where you can have an in-person meeting either with our representatives or surgeons depending on their availability. And this comprehensive initial medical consultation opportunity is totally free of charge. We are also performing aftercare services at these offices in line with our life-long support principle as we always highlight that WE ARE ALWAYS TOGETHER!!

Please fill in the form below so that we can get in contact with you as soon as possible.

Introduction

Our Project

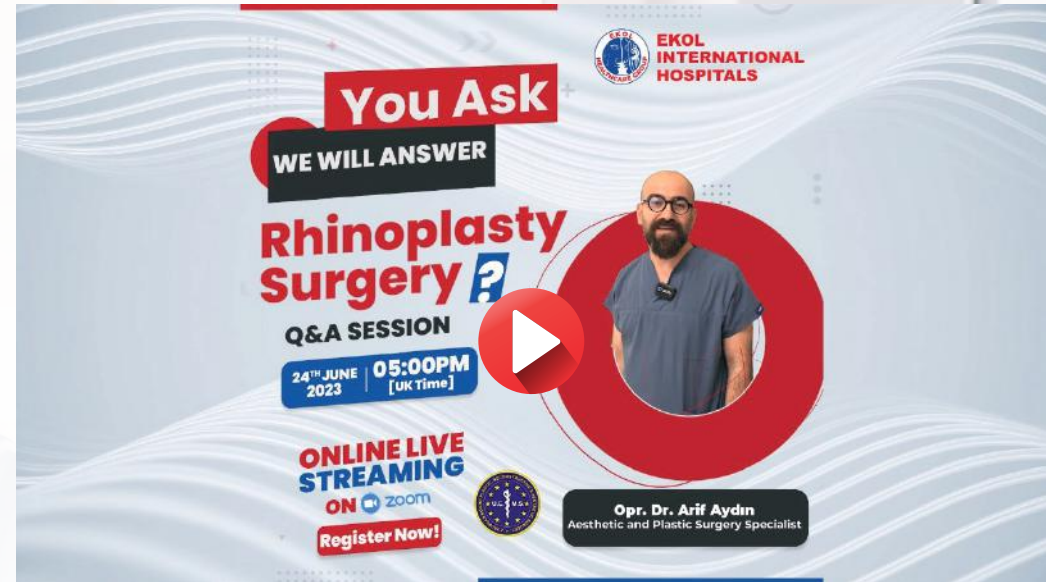

Webinar Project is designed to provide patients from all over the world with great amount of information before they are finally ready to get the surgery done. The reason this is a live stream is that, it is of importance that you hear what former patients will tell about their experiences and what other candidates will ask. There may always be something you did not think of, but would like to know. This live stream will contain, detailed information regarding the surgery and it will be a good opportunity for you to wash away your worries with the information given by the surgeon who will be performing your surgery. The meeting will also go online, so even though you forget some of the answers, you will be able to watch again and you will never have to doubt your memory to see if you remember the information correctly or not.

Steps to this Webinar are as follows;

01 Introduction video of Ekol Hospitals

02 Introduction video of the surgeon

03 General Information on the related operations by the surgeon.

04 What makes you eligible for the procedure?

05 What are the side effects?

06 What is the aftercare like? Medications, diet plan, etc.

07 Q&A

After the Q&A session you will be explained about the booking process by the moderator.

Webinar is and will only ever be to increase our service quality with all the information we can share to give you comfort and to build great foundation of knowledge before anyone at any age decides to go further. As Ekol Hospitals we simply want what is best for you and this Webinar will give you the chance to decide what is best without rushing you into anything.

Why Choose Us?

More Than 15 Years of Experience

Founded in 2007, Ekol Hospitals has been given high quality service to patients from all over the world.

No Additional Fees

As a privileged hospital, we cover all your needs without any added cost to your special package offers.

Native Personal Assistance

As you stay at our hospital, we will provide you with 24/7 language assistance fluently in English, German, French, Russian and Spanish.

1000+ Healthcare Workers

Most importantly we have a separate international nursing department to provide you with the best aftercare throughout your whole stay at our hospital. Our international nurses will be giving you special care.

Location Advantage

Our hospital is at the very center, close to the hotels our patients will be staying at, close to shopping malls and etc.

Registered Company in the UK and Ireland

With our 15 years of experience in the field we are also registered in the UK and Ireland representing our company in your homeland as well.

Tax Back Opportunity

You can even take some of the money back by claiming you've had an operation here with the receipt we will give you after surgery.

Accommodation at Luxury Ekol Health Centers

We care about your health and comfort more than anything. You will have a room of your own which will be cleaned the whole time. We will make your stay here worth your whole trip from your country to Ekol.

Quality Management System And Our Quality Policy

Quality management system; It has been created with the aim of continuous measurement and improvement with the participation of all employees in order to ensure patient and employee safety and satisfaction in line with Quality Standards in Health and Integrated Management Systems.

Ekol Health Group Quality Management Unit, which operates with its professional team, by controlling the Patient Satisfaction-Oriented Service Approach in all areas of our hospitals, ensuring the continuity and sustainability of our service quality, closely monitors the entire quality process by keeping in constant contact with patients and staff inside the hospitals.

At Ekol Health Group Hospitals, certifications pertaining to ISO standards are also made and their continuity is ensured.

- 01 ISO 9001:2015 - Quality Management System,
- 02 ISO 14001:2015 – Environmental Management System,
- 03 ISO 45001:2018 – Occupational Health and Safety Management System,
- 04 ISO 10002:2018 – Customer Satisfaction Management System,
- 05 ISO 27001:2013 - Information Security Management System.
